- Clear-View Roof
- Power Dump Box
- Rear Receiver Wiring
- Windshield with Wiper
- Heated Hand Grips
- Auto Chain Lubrication System
- Dry Storage Tote
- Spot Light
- Vise
Mobility to go anywhere on earth – and beyond!

For 50 years, ARGO has been on a quest to build the ultimate vehicle for the world's most challenging terrain conditions. From wilderness recreation to lunar space exploration, our ground-breaking innovations have made ARGO the most successful amphibious Xtreme Terrain Vehicle (XTV) in the world.

Today's challenge?

To make Xtreme mobility accessible to all those who venture into rough country anywhere in the world:

• for the hunters, anglers and eco-adventurers who take on tough terrain for the pure joy of it
• for the emergency workers who must traverse every obstacle, when lives are at stake
• for the outdoor professionals who work in the wilds to expand the horizons of our earth resources

From the bayous to the highlands, from the Arctic to the rainforests, our mission is to get them there, and bring them home safe again.

Every ARGO is fully amphibious, able to swim ponds, streams and wetlands where no other vehicle can go.

ARGO is a primary contributor to NASA and prime contractor to the Canadian Space Agency on the design and development of Xtreme terrain mobility platforms for extra planetary exploration.
ARGO is the world’s “go-to” vehicle for people who need to “get there”, no matter where. Xtreme terrain is no obstacle to your ARGO, whether you’re forging through the mud, skimming over snow or scrambling over hard rock. Nothing else goes like an ARGO, because nothing else is built like an ARGO.

**CLASSIC Transmission**

**ADMIRAL Transmission**

**All-Season Engines**

Dependable Kohler gas and diesel engines deliver sure starts for your ARGO in any climate conditions, including high altitudes. For commercial users, ARGO offers diesel engine models to share fuel supplies with other equipment in your fleet or camp.

**Deep snow mobility**

Optional ARGO track kits add trail-clearing practicality by floating over snow and fragile terrain with less ground pressure than your own footstep.

**Low pressure tires**

ARGO tires are custom engineered to provide propulsion for the vehicle when used amphibiously and to provide superior traction when off-roading in challenging terrain.

**Dual beadlock rims**

New and stylish, aluminum beadlock rims allow operators to adjust their tire pressure to the terrain. The beadlock feature keeps the tires firmly fixed to the tire when the terrain demands a pressure adjustment to 1.5 psi.

**All-terrain body**

Our one-piece lower body is ARGO’s signature design feature, engineered to keep water hazards out and keep environmental hazards in. Its smooth, durable underbody floats over potential snags, stumps and outcrops as well as wetlands and water courses.

**CELEBRATING 50 YEARS OF ADVANCED MOBILITY RESEARCH**

ARGO’s parent company, Ontario Drive & Gear Limited, is a world leader in precision gearing and high performance transmissions. At the heart of every ARGO is a fully mechanical drivetrain based on ODG technology to ensure the best in reliability, maintainability and smooth, efficient transfer of power to the ground.
Easy Steer™ - Now standard on all ADMIRAL transmissions, Easy Steer delivers ARGO’s smoothest steering ever! Yet in low range, it lets your ARGO turn within its own length to maneuver in tight terrain.

**CLASSIC Transmissions**

**TAKE THE HIGH ROAD!**

Match your power profile with ARGO ADMIRAL transmissions

ADMIRAL Easy Steer™ transmissions with independent steering brakes make off-road handling simpler, smoother and safer than ever.

**NEW FOR 2017**

**High Torque (HT)** – the ideal option when majority of use includes operation in Xtreme terrain, moving heavy loads, track use, high altitude or continuous slow speed operations. Capable of reaching speeds of up to 17 mph (27 km/h)

**Standard (STD)** – the ideal option to provide a balance between speed and torque. Suitable for moderate use in all types of terrain, moving heavy loads, track use or high elevation. Capable of reaching speeds of up to 20 mph (32 km/h)

**High Speed (HS)** – the ideal option when a higher top speed is important. This option results in a slight reduction in payload and performance with tracks installed. Suitable for occasional use in all type of terrain, moving heavy loads, track use or high elevation. Capable of reaching speeds of up to 25 mph (40 km/h)

*top speed varies depending on terrain, payload and operating conditions.

**Your choice for high torque, high speed, or all ‘round performance**

ARGO's new generation of ADMIRAL transmissions with Easy Steer™ to suit your off-roading style with maximum pulling power, maximum travel speed, or an optimum balance of the two.

**EASY STEER™**

- Now standard on all ADMIRAL transmissions, Easy Steer delivers ARGO’s smoothest steering ever! Yet in low range, it lets your ARGO turn within its own length to maneuver in tight terrain.
The ARGO family of Xtreme terrain vehicles covers a full range of models for every recreational and professional requirement.

Choose the vehicle series and model that best suits your needs, then make it truly your own with ARGO’s extensive range of optional accessories and attachments.

Whether you’re moved by comfort, performance or practicality, ARGO is the one choice that will never steer you wrong!

**THE ONLY WAY TO GO!**

**Frontier Series**

6x6 Models

- 6-wheeled & 8-wheeled platform options
- 19 - 23 HP air-cooled Kohler EFI engines
- Proven CLASSIC and advanced ADMIRAL Easy Steer™ transmission available

**Avenger Series**

6x6 Models

- 6-wheeled platform for ultimate versatility
- 30 HP liquid-cooled Kohler EFI engines
- Full range of CLASSIC and ADMIRAL Easy Steer™ transmissions available
- Load capacity up to 1,110 lb. (503 kg)
- Available beadlock rims

**Conquest Series**

6x8 Models

- 8x8-wheeled mobility and load-carrying capacity
- 30 HP liquid-cooled Kohler EFI gasoline engine or 24 HP Kohler diesel engine
- Xtreme-duty ADMIRAL Easy Steer™ transmission
- Loads up to 1,450 lb. (658 kg); 2,000 lb. (900 kg) towing capacity
- Enclosed oil bath heavy duty axles
- Heavy duty tubular steel frame

**Xtreme-terrain performance for everyone!**

**The world standard for amphibious off-road mobility!**

**The premium choice for outdoor professionals!**
ARGO’s high ground clearance and superior traction lets you explore new territories with confidence to find the best game.

Features like ARGO brushguards, storage racks and fog lamps are tailored to the rough travel conditions that dedicated hunters and anglers face en route to their most favored spots.

ARGO’s gun racks and storage compartments ensure safe, secure storage.

GO WILD!

Get away from it all with ARGO Wilderness Series

Compared to ARGO 6x6 and 8x8 Wilderness XTVs, any other off-road vehicle is strictly bush league!

In their signature Infinity Camo color detailing, each of the ARGO Wilderness XTVs is specially equipped with standard features packaged together with serious hunters and anglers in mind.

These multi-passenger XTVs offer ample room for your party and all their gear, plus room to bring back the game of the day. Their upgraded seating keeps you comfortable and alert through long treks to and through the best hunting grounds and fishing spots. From bore country to remote wetlands, count on ARGO to take you where others can’t follow!
Stretcher mount
The ARGO Responder’s rail mount accepts optional stretchers and provides rear slide-in-lowering to reduce lifting hazards to emergency crews. ARGO stability gives medics an effective platform for administering aid to passengers while in transit.

Ice rescues
ARGO’s extremely light footprint and fully amphibious lower body allow safe transport of rescue teams on frozen lakes and rivers. Its stability in water minimizes risk to crews when bringing victims on board.

Lift points
Carabiner attachments at 4 axle points enable high angle evacuations and rapid delivery of ARGO’s Xtreme terrain ambulance by helicopter.
ARGO vehicles don’t just take on Xtreme terrain missions for utility and survey crews – they do it every day. The ARGO XTVs are engineered to prevent the delays that keep other vehicles from completing their mission.

All that and ARGO’s renowned durability mean less downtime for your vehicle, so there’s less downtime from your crews.

Heavy-duty and dependable, ARGO handles rocks, hills, sand dunes and rivers while carrying up to 1,450 lb. (658 kg) of payload. Its stability and active power provide a dependable load-carrying platform to transport transformers, to pull cables or to bore footings on the most remote work sites.

ARGO’s enclosed engine compartment minimizes heat and spark hazards for an extra measure of safety in fire-prone bush areas and grasslands. With optional ROPS and tops, ARGO brings shelter for work crews, too.

Tailored to support crews servicing remote power and communications towers, the Lineman’s versatile tool package includes a 38 gal. (165 L) dry storage tote, ropes, worklights, and even a stretcher for emergency evac. A rear-mounted Wilton Vise provides a convenient shop station mounted at a comfortable working height.

With its 2-person ROPS shelter and Power Dump Box package, ARGO’s Explorer model can quickly become the utility work horse for any remote camp. The optional diesel engine can simplify service and fuel planning for your camp’s fleet.

Install the optional Universal Mounting System in your ARGO’s rear compartment, and you can turn your XTV into a mobile tool shop with interchangeable winches, jib cranes and power sources for electric, hydraulic and pneumatic equipment.

ARGO’s optional 8-wheeled amphibious platform adds 1,400 lb. (636 kg) flexible capacity for resupply roles including water and fuel tanks, bulk cargo, and equipment.
Appearance and specifications subject to change without notice. For safety, always wear approved helmets and eye protection. When operating in water, always wear Personal Flotation Devices.

FRONTIER SERIES
SERIES XTVs

Xtreme starts here

6-wheeled or 8-wheeled Xtreme-terrain performance for everyone!

ARGO’s Frontier Series sets the pace for off-road power, comfort and safety. Fully amphibious 6x6 and 8x8 platforms deliver the full “go anywhere” experience with a wide range of standard models and accessories to personalize your ARGO, your way!

• 19 HP Kohler air cooled engine
• ARGO CLASSIC transmission
• 24" tires with steel rims
• Carry up to 670 lb. (304 kg) of cargo and equipment

Frontier ST model shown with optional brushguard, Winch and handrails.

Utility Bracket
Two “rugged gear” utility hooks and barrel secures objects such as shovels, fishing rods, paddles or inside of your ARGO.

SCOUT

POWERFUL, RELIABLE AND AS TOUGH-AS-NAILS...

Frontier Scout models come ready for the hunt, decked out in their Infinity Camo pattern for maximum stealth. 6x6 and Bell Scout XTVs not only look the part, they’re specifically equipped with the extras that every hunter and angler needs for serious off-road forays.

The Bell Scout 5 steps out with an upgraded 26 HP engine and heavy-duty drive belt, plus extra storage for larger parties.

The 6x6 and 8x8 Scout XTVs not only look the part, they’re specially equipped with the extras that every hunter and angler needs for serious off-road forays.

Compact 6x6 Scout S travels light & lean with 23 HP EFI engine.

The 8x8 Scout S steps out with an upgraded 26 HP engine and heavy-duty drive belt, plus extra storage for larger parties.

6x6 and 8x8 Scout XTVs not only look the part, they’re specially equipped with the extras that every hunter and angler needs for serious off-road forays.

The powerful Warn winch, standard on Scout models, provides up to 3,500 lb. (1,588 kg) of pull for vehicle recovery or heavy loading.

A full-length skid plate protects the underbody from damaging brush and rocks, and allows the Scout to resist hanging up on trail obstacles.

A robust brushguard mounted up front fends off impacts from brush and branches.

Side entry step gives safety a leg up for XTV entry & exit when you’re loaded down with guns and gear.

A full-length skid plate protects the underbody from damaging brush and rocks, and allows the Scout to resist hanging up on trail obstacles.

A robust brushguard mounted up front fends off impacts from brush and branches.
SAVE TIME, AND SAVE LIVES, WHEN EMERGENCIES CALL FOR XTREME MOBILITY

For search & rescue in deep bush or rough terrain, your Frontier Responder covers more ground faster to access any remote area. When minutes count, your Responder breaks through to off-road emergencies with the right gear to extricate victims and let medics get to work without delay.

The Frontunner Responder S provides a stable base for crews to administer medical help while the patient is still in transit.

The Responder stretcher frame is compatible with Ferno #9 Stretcher and Ferno Rescue basket. The rail mount allows rear loading to increase safety and reduce lifting stresses on crew members.

The rear compartment provides ample space for essential supplies for First Aid, including IV packs, Defibrillator/AED, and oxygen.

Team Seating allows rapid transport of up to 3 crew members with the stretcher deployed; configured to allow access to the patient and to medical supplies.

Full equip mobile crews against multiple hazards with industry-standard equipment and tools.

- 29 HP Kohler EFI engine
- Choice of CLASSIC STD or CLASSIC HT transmission
- Stretcher mount frame
- Folding seat
- Rear receiver winch kit
- First Aid compartment
- Brake/tail lights
- Seating for 6 crew (3 with stretcher)

Emergency Lighting Options:
- LED spot lights
- Parachute light
- Warning lights
- Red beacon

**HUNT MASTER/R/Z/X/ZX**

**GO WHERE THE GAME IS**

The new Avenger Hunt Master is ARGO’s ultimate XTV for the serious hunter. Hunt Master XTVs feature a host of high performance features designed to easily get you, your gear and your hunting party out to the best hunting grounds and then safety back to camp. Pick one of five Hunt Master models, then mount & go where others can’t follow!

**PREMIUM FEATURES INCLUDED ON HUNT MASTER**

- 3,500 lb. (1,588 kg) Warn winch
- Dual side entry steps
- Brushguard
- Hood rack
- HD drive belt
- Brake/tail lights
- Rear receiver winch kit

Appearance and specifications subject to change without notice. For safety, always wear approved helmets and eye protection. When operating in water, always wear Personal Flotation Devices.

**ACCESSORIZE YOUR ARGO**

- Rubber tracks
- Lightweight durable construction and low rolling resistance ensures smooth quiet operation in difficult terrain conditions.
- Hunt Master brushguard fends off low branches and brush when moving through thick cover. Includes an integrated tow hook and mounts fog lamps.
- This rear receiver winch mount and wiring harness allows rear mounting of the standard Warn winch to get more use out of its heavy pulling and loading capability.
- The Sure Grip gun rack stores up to 4 rifles or shotguns and absorbs the shocks of rough terrain to keep your sights accurate. Easily converts to rack bows, too.
- Upgraded front and rear seats, including a padded front seat backrest, keep your Hunt Master party comfortable while riding the roughest terrain. Arrive relaxed and alert.
- Dual side entry steps allow improved footing for passengers entering the XTV while carrying weapons and gear.
- A detachable hood rack provides extra storage for packs and gear for long hunting trips, or it can serve as a convenient space for bringing home smaller game.

**Hunt Master R/X/ZX**

New aluminum beadlock rims with low pressure tires, ensure the softest, smoothest ride ever.

**Features**

- New aluminum beadlock rims with low pressure tires, ensure the softest, smoothest ride ever.
- Dual side entry steps allow improved footing for passengers entering the XTV while carrying weapons and gear.
- 4-detachable hood rack provides extra storage for packs and gear for long hunting trips, or it can serve as a convenient space for bringing home smaller game.

The Conquest family of XTVs is designed for the people who don’t have to be told when to work, where to work, and when to stop. It is designed for the people who can’t afford to be held back by technology that only gets in the way. Conquest XTVs are designed, built, and tested to go anywhere and do anything you throw at it.

The Conquest family of XTVs is designed for the people who take on the toughest jobs in all outdoors! When you work in the wild country, you don’t get to decide whether it’s a good day for a ride – you go where and when there’s work to be done. At the end of the day, Conquest XTVs give you mobility you can trust to get you to work, and get you home.

Utilities Service • Survey & Exploration • Camp Transport • Safety Patrols

Conquest d

Equipped with all of the same features as the standard Conquest i, the model is powered by a 24 HP Kohler diesel engine. For remote worksites, this model can simplify management of fuel supply and field service alongside other diesel-fueled equipment.

STANDARD FEATURES ON ALL CONQUEST MODELS

- 25” tires with steel rims
- HD drive belt
- Steel upper frame
- Heavy-duty frame
- Skid plate
- Spreader axles
- Light pump
- Alternator

Conquest d model shown with optional ROPS/roof, catwalk mudflaps, utility box and tow-behind trailer.
CONQUEST i/d/XTi/XTd

BUILT TO DO YOUR DIRTY WORK

Standard ARGO Conquest models are the professional choice for transporting personnel, tools and supplies to the world’s most remote work sites, with robust features to stand up to hard use every day.

Conquest XTi
Includes brushguard and 4,500 lb. (2,041 kg) Warn Winch

Available in Green and Construction Yellow

Auto Chain Lubrication
Simplifies routine maintenance to ensure smooth, dependable operation for frequent users.

Rear Receiver Winch Mount
This rear receiver winch mount and wiring harness allow rear mounting of the standard Warn winch to get more use out of the heavy pulling and loading capability.

HD Drive Belt
HD Drive belt stands up against hard use for traversing the most challenging terrain.

ACCESSORIZE YOUR ARGO

Catwalk - 6.25” (160 mm) steel platform along the length of the vehicle. Includes a 10” (255 mm) mud flap.

PREMIUM FEATURES INCLUDED ON OUTFITTER

- Premium front and rear seats
- Gun rack
- Front rack
- Rear receiver winch & wiring
- LED headlights
- Heated driver and passenger hand grips

WHERE THE PROFESSIONAL HUNTS BEGIN

We asked the world’s most demanding offroad experts what they need: hunt camp operators, lodge owners, and big game guides who traverse the hunting grounds of every type and description. The flagship of the ARGO Wilderness Series, the Conquest Outfitter, gives them (and you) the total package.

OUTFITTER XTi/XTi-Z

The Sure Grip gun rack provides secure single-mounted or gun slung to ensure the safe transportation of weapons to and from hunting grounds. Also converts easily for racking bows.

An enhanced lighting package equips Outfitter models with dual high-powered front LED headlamps and floodlights for extra visibility around camps sides and on early-morning trails.

Premium seating for 6 with upgraded front and rear seat cushions plus front seat backrest pad to prevent fatigue on long hunts. Handrails give rear passengers a secure hold while traversing broken terrain.

An enhanced lighting package equips Outfitter models with dual high-powered front LED headlamps and floodlights for extra visibility around camps sides and on early-morning trails.

Access to all available ARGO accessories can be found in the SEE ATTACHMENTS & ADD-ONS SECTION.
EXPLORER XTi/XTd

THE WORKHORSE OF THE CAMP FOR UTILITY HAULING AND LOGISTICS IN REMOTE WORKSITES

Explore the possibilities for improving facility maintenance and extending your season by adding this hard-working XTV with the go-anywhere-do-everything attitude to your fleet.

PREMIUM FEATURES INCLUDED ON EXPLORER

- Two-person ROPS with rear mesh
- Clear-view roof
- Power dump box
- Rear receiver winch wiring
- Windshield with wiper
- Heated hand grips
- Choice of gasoline or diesel engines

Available in Green and Construction Yellow

Power Dump Box

For moving loads over broken terrain, the Explorer’s solid steel dump box handles payloads up to 1,055 lb. (479 kg). Operated easily from the driver’s seat using the 74” (1.9 m) stroke actuator to tip the box (i.e., for use over deep water).

Adjustable Steering

Multi-position steering system, instrumentation panel and convenience package (two cup holders, two storage compartments and two 12 volt outlets).

Heavy-Duty Winch

The Explorer heavy-duty winch kit includes a 30 ft. (9.14 m) tow strap, winch block, mounting plates and winch guard. The heavy-duty model will draw up to 4,500 lb. (2,041 kg). The winch assembly can also be moved easily from front to rear mount with the Explorer’s rear receiver winch kit and wiring harness, also included as standard.

Tracks & Cleats

Add extra "GO" to your ARGO

Rubber Tracks
Heavy duty, 18" (457 mm) wide rubber track provides optimum flotation with minimal ground pressure. Exceptional traction.

HD Rubber Tracks
Xtreme duty 18" (457 mm) wide rubber track with UHMW-PE guides, reinforced turf tire and rim provides optimum flotation with minimal ground pressure. Designed for use with Conquest models, this track offers quiet operation, superior wear and durability in difficult terrain.

Ice Cleats for Tracks
Tamper resistant, stainless steel, non-slip cleats. Available in two configurations.

Plastic Tracks
General purpose, 13" (330 mm) wide or medium duty 18" (457 mm) wide, impact resistant, light weight segmented thermoplastic rubber tracks with integrated track guides. Tracks fit over 24" (610 mm) ARGO tires without the need to install wheel spacers. Designed for mud, flooded areas and snow, offering low ground pressure.

Quad Rubber Tracks
Xtreme duty 18" (457 mm) wide rubber track with UHMW-PE guides, reinforced turf tire and rim provides optimum flotation with minimal ground pressure. Designed for use with Conquest models, this track offers quiet operation, superior wear and durability in difficult terrain.

Four track configuration designed for ARGO with 24" (610 mm) turf tires.

Plastic Tracks
General purpose, 13" (330 mm) wide or medium duty 18" (457 mm) wide, impact resistant, light weight segmented thermoplastic rubber tracks with integrated track guides. Tracks fit over 24" (610 mm) ARGO tires without the need to install wheel spacers. Designed for mud, flooded areas and snow, offering low ground pressure.

Plastic Tracks
General purpose, 13" (330 mm) wide or medium duty 18" (457 mm) wide, impact resistant, light weight segmented thermoplastic rubber tracks with integrated track guides. Tracks fit over 24" (610 mm) ARGO tires without the need to install wheel spacers. Designed for mud, flooded areas and snow, offering low ground pressure.

Convertible Top
Protects all occupants or cargo from outdoor elements. Converts from a full enclosure to bimini top by removing all sides. When not in use, the top is easily removed or folded down and protected with the included boot cover. Requires Feet Fold Down windshield.

Convertible Half Top
Protects driver and passenger from outdoor elements. Features removable side and rear doors, allowing easy access to the rear cargo compartment area.

Hard Top Roof
2 or 4 Person
Vacuum formed hard top that provides additional protection to your crew and equipment from sun, rain or snow.

Requires ROPS.

Mounted shelter from sun, wind, rain and cold

ATTACHMENTS & ADD-ONS

KEEP YOURSELF COMFORTABLE

Add a Cab Heater
Driver and passenger cab heater option comes complete with heater, vents and control.

Windshield Wiper
Complete with everything needed to assemble and fit to your ARGO windshield. Wiper motor mounts quickly and easily.

Windshields & Roofs

Windshields
Complete with ventilation ports and optional defroster vent. Complete with everything needed to assemble and fit to your ARGO windshield. Wiper motor mounts quickly and easily.

Canvas Sides 2 or 4 Person
Protect driver, passenger and cargo from outdoor elements. Features removable sides and doors, allowing easy access to the rear cargo compartment area.

Requires windshield, ROPS and hard top.

Add the Canvas Enclosure Conversion Kit for complete protection from the elements.

Mobile shelter from sun, wind, rain and cold

Keep your own way

You’ve seen today’s best in Xtreme terrain vehicles. Now make one your own. ARGO Frontier, Avenger and Conquest give you the perfect platforms for building the XTV of your dreams. Your authorized ARGO dealer is ready to help you adapt your ARGO to suit the way you roll with a flexible tool kit of options, accessories and attachments, backed by expert installation and support services.

Now… where you go from here is up to you.
Protect yourself and your passengers

**Safety & Protection**

**Roll Bar Lights**
- Dual 4 x 5 lights, easy install to your existing light bar
- Stylish and functional; body, lights and winch are protected from brush
- Use part #642-80 if equipped with ROPS

**Roll Bar**
- Give your 6x6 a new look at style. Folding rearwards for easy accommodation of a soft top
- Mounting location for extra fog lights

**Fog Lights**
- Dual 3 x 5 lights, easy to install to your existing light bar
- Weather resistant and rubber mounted to reduce shock and vibration

**Roller Protective Structure (ROPS)**
- 4 Person (Avenger Series Only)
  - Full vehicle roll over protection complete with two seat belts for driver and passenger
  - Available for all models with options for seat belts and rear bench (8X8 Models only)
  - Cannot be combined with light bar, suspension seats or standard brushguard

**Rollover Protective Structure (ROPS)**
- 2 or 4 Person (Conquest Series Only)
  - Driver and front passenger Roll Over Protection Structure complete with seat belts, certified to ISO 5700
  - Also available in an extended vehicle configuration, up to 4 people when rear bench seat is installed

**Rollover Protective Structure (ROPS)**
- 6 Person (Avenger Series Only)
  - Full vehicle roll over protection complete with two seat belts for driver and passenger
  - Available for all models with options for seat belts and rear bench (8X8 Models only)

**Brake/Tail Lights**
- Be seen. Brake/tail lights provide an extra level of safety while trail riding at night
- Illuminated when the headlights are on and signals drivers behind you when brakes are applied

**Fog Lights**
- Mounts directly to the brushguard
- Provides added illumination in poor visibility due to rain, fog, dust or snow

**Dump Box**
- For moving bulk loads over broken terrain, this solid steel dump box handles payloads up to 1,000 lb. (450 kg)
- Offload easily from the driver’s seat using the 14” stroke actuator to top tilt or dump the box (Not for amphibious use)
- Available for Conquest Series only

**Gun Rack (Sure Grip)**
- In keeping with ARGO’s reputation for comfort and safety, ARGO now offers a Sure Grip gun rack for all models
- Shock absorbing and rubberized grip, the Sure Grip gun rack ensures safe transportation of weapons to the best hunting grounds

**Storage Tote**
- Sits conveniently in the rear cargo area, providing 38 gal. of lockable dry stowage for tools and supplies
- The removable box is fitted with wheels and handles for easy portability
- Available for Conquest Series only

**Utility Rack**
- The utility bracket consists of two “rugged gear” utility hooks and a barrel holder
- It is an ideal way to safely secure objects such as shovels, fishing rods, paddles, etc. to the outside or inside of your ARGO

**Rear Bench Seat**
- Frame mounted, forward facing rear bench seat provides additional seating for 2 passengers
- The bench seat can be removed quickly, without tools, to gain unrestricted access to the rear cargo area

**Handrails**
- The handrails securely mount to the upper body used as a hand hold for rear passengers, or as a convenient tie down point to secure cargo

**Utility Storage Pouch**
- Dome snaps attach to seat back rest adding convenient storage space
- Ideal for keeping first aid kits, tools, electronics and other items safe, clean and easily accessible

**Rollover Protective Structure (ROPS)**
- 4 Person (Avenger Series Only)
  - Full vehicle roll over protection complete with two seat belts for driver and passenger
  - Available for all models with options for seat belts and rear bench (8X8 Models only)

**Dump Box**
- For moving bulk loads over broken terrain, this solid steel dump box handles payloads up to 1,000 lb. (450 kg)
- Offload easily from the driver’s seat using the 14” stroke actuator to top tilt or dump the box (Not for amphibious use)
- Available for Conquest Series only

**Gun Rack (Sure Grip)**
- In keeping with ARGO’s reputation for comfort and safety, ARGO now offers a Sure Grip gun rack for all models
- Shock absorbing and rubberized grip, the Sure Grip gun rack ensures safe transportation of weapons to the best hunting grounds

**Storage Tote**
- Sits conveniently in the rear cargo area, providing 38 gal. of lockable dry stowage for tools and supplies
- The removable box is fitted with wheels and handles for easy portability
- Available for Conquest Series only

**Utility Rack**
- The utility bracket consists of two “rugged gear” utility hooks and a barrel holder

ATTACHMENTS & ADD-ONS

**WARN ProVantage Winch**
For vehicle recovery or to raise and lower snow plow blade. 3,500 lb. (1,588 kg) capacity, reversing with free wheeling feature. Comes with 40’ (12 m) cable with 30’ (9 m) nylon strap. Safety switch disables winch unless ignition is on. A 4,500 lb. (2,041 kg) winch is standard on Conquest models.

**Catwalk**
6.25” (160 mm) steel platform runs the full length of the vehicle. Includes a 10” (255 mm) mud flap. Available for Conquest Series only.

**Universal Mounting System**
Quick change universal mount. The sub frame holds up to 750 lb. (340 kg); bolts directly to main chassis offering a secure structure for third party equipment.

**Practical additions to make the most of your ARGO**

**Outboard Motor Bracket**
This one-piece bracket mounts to the bumper and rear receiver hitch bracket. Mounting location is slightly off-center and accepts an outboard motor of up to 9.9 HP for increased propulsion in water.

**Storage Protective Covers**
Available for Frontier and Avenger models without ROPS. Protects your investment from the elements when not in use. Not intended to be used when towing vehicles on trailers.

**Bedliner**
One-piece polyethylene bed-liner insert protects your cargo storage space from debris. Simple installation. Removable and easy to clean. Fits 8X8 Frontier and Avenger models.

**Auto Chain Lubrication System**
Automates chain lubrication requirements. The system automatically delivers chain lube every 15 minutes of vehicle operation for a total spray time of 5 seconds. A one-hour timer is also available for applications that require less frequent chain lubrication.

**Hood Fan**
(Not shown) Extracts hot air from engine compartment (in Xtreme heat conditions).

**Brake Cooling Fan**
(Not shown) 105 CFM fan directing cool air to the service brakes.

**Helicopter Lift Kit**
Axle mounted D-ring at 4 corners, quick release point for helicopter sling connection.

**Gas Can Holder**
Adjustable gas can holder mounted at the rear of the vehicle. Designed to accept a wide variety of Jerry cans.

**Tire Holder**
For vehicles equipped with Super Rim or Finishing Touch Tires. Designed to accept a complete wheel and tire package up to 24” (610 mm), 25” (635 mm) with 5.00” (127 mm) tire bead width and 8,200 lb. (3,720 kg) maximum tire inflation pressure. 24” (610 mm) tire bead width is standard on all models, 25” (635 mm) tire bead width is optional on 24” (610 mm) and Avenger models.

**Rear Receiver Winch Accessory**
Mounts directly to the rear receiver hitch, extending the versatility of your winch. Includes front to rear wire harness and quick disconnect cables.

**Wireless Winch Remote Control**
Wireless and compact, this unit controls remote use of winch from a location of up to 50’ (15.24 m) for added convenience and versatility.

**8-Wheel trailer (Amphibious)**
Up to 600 lb. (275 kg) load capacity in a black 6-wheel lower body with ARGO axles and wheels. Complete with 24” (610 mm) or 25” (635 mm) tires. Available for all models.

**Emergency Lighting Package**
A multitude of options to light up your Responder vehicle. Choose from red and white perimeter strobe lighting, overhead spot lights, front mounted siren/speaker & strobe. All lighting is LED to reduce electrical load.

**Fire Skid/Foam Unit**
Custom designed to fit into the rear compartment of any 8x8 Frontier or Avenger, the 80 gal. (303 L) fire suppression unit holds 75 gal. (284 L) of water plus a 5 gal. (19 L) foam cell. Packaged with a Honda engine, two-stage CET centrifugal pump, 100 ft. (30.5 m) of hose and forestry nozzle.

**First Responder Accessories**
Custom designed to fit into the rear compartment of any 8x8 Frontier or Avenger, the 80 gal. (303 L) fire suppression unit holds 75 gal. (284 L) of water plus a 5 gal. (19 L) foam cell. Packaged with a Honda engine, two-stage CET centrifugal pump, 100 ft. (30.5 m) of hose and forestry nozzle.

**Flatbed Deck**
Bolts directly to the main chassis and features a 2” x 2” box section frame, 1” steel tubing and a 10” (255 mm) wide conveyor belt. Features a 4” (102 mm) deep welded plate with 3/8” (9.5 mm) thick plate. Optional high lift kit available. For Conquest Series only.

**Bedliner**
For spray-on or physical mounting. Have your locally paint your cargo bed to match or coordinate with your vehicle. Optional high lift kit available. For Conquest Series only.

**4-Wheel Trailer (Amphibious)**
Up to 1,400 lb. (635 kg) load capacity. Complete with 24” (610 mm) or 25” (635 mm) tires.

**Storage Protective Covers**
Available for Conquest and Avenger models with ROPS. Protective cover is Snap on and off covers for the body, door, front and rear doors, hood, and engine compartment. Designed to fit in a smaller footprint than overhead covers but still protects your investment from the elements.

**Emergency Lighting Package**
A multitude of options to light up your Responder vehicle. Choose from red and white perimeter strobe lighting, overhead spot lights, front mounted siren/speaker & strobe. All lighting is LED to reduce electrical load.
